

**KEY**

- Site Boundary and Turbine Locations
- Study Area Radius

**Number of Turbines Theoretically Visible**

- 1-3 turbine tips visible
- 4-6 turbine tips visible
- 7-10 turbine tips visible
- 11-13 turbine tips visible

This ZTV image illustrates the theoretical extent from where all or part of the development would be visible from a view height of 2m. The image is produced using terrain data assuming 100% visibility. It does not take account of screening that vegetation or the built environment may provide. It therefore represents a 'worst-case' ZTV and the actual extent of visibility is likely to be much less extensive.
